

Won-Door accordion folding partitions protect in many ways.

Safety...

FireGuard Horizontally Sliding Accordion Egress Fire Doors are available in heights up to 23 feet, meet all Model Code requirements, are ADA compliant and have fire restrictive ratings of 20, 60, 90 and 180 minutes – all without a floor track!

Security...

SteelCurtain Deployable Access Control Barrier provides quick and effective compartmentalization of facilities such as airports, schools, museums and any other building where security is of paramount importance.

Health...

DuraSound Lead Lined XL with a Lead Equivalency rating of .5 to 1.0 is designed for healthcare radiological applications.

DuraSound Acoustical Doors create "Hearing Safe" environments with an STC rating of 48, the highest of any accordion folding partition available.
