

Finally, a Cost-Effective Alternative to Side-hinged Fire Doors on Hold Opens

Won-Door FireGuard™ CS

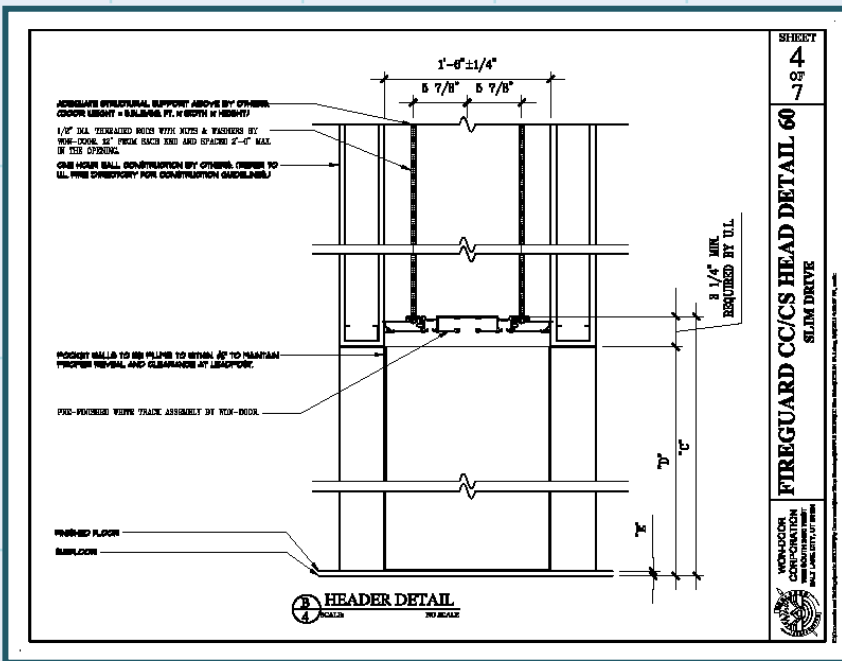

COMPRESSED STACK

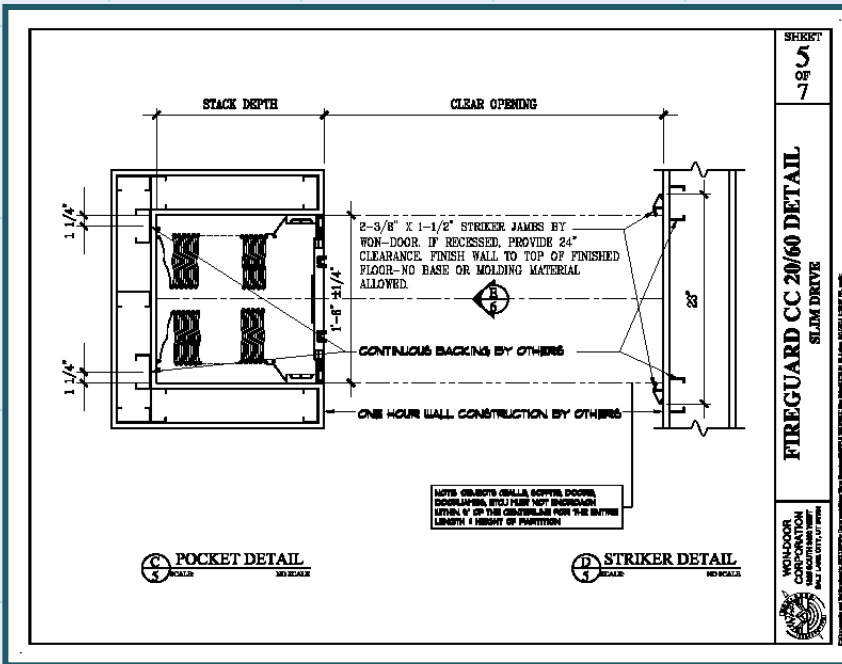

- Wide open corridors
- No exposed hardware
- Low maintenance
- Integrated pocket cover door
- “Green” self-supporting track system
- Meets all egress requirements
- Pocket depths reduced by up to 50%

www.wondoors.com

Integrated self-supporting "Green" track system eliminates the need for a traditional plywood and drywall header assembly

Open, unobstructed corridors

Limitations and Considerations:

- **Size** – Maximum height is 12' 3-1/4". Maximum width is 30'.
- **Fire Rating** – Fire ratings up to 3-hours are available. Smoke rating is available.
- **Air Pressure** – Maximum of 0.1" W.C. is allowed (Additional equipment is required).
- **Single parting only** - bi-parting, curves and temperature rise are available with other FireGuard models.
